UNITED STATES INTELLIGENCE BOARD

OFFICE OF THE EXECUTIVE SECRETARY

MEMORANDUM FOR: Chief, CIA Records Center

SUBJECT : Index to USIB Documents for Reference
at the Johnson Library

1. This memorandum and its attachments are being forwarded for your information and retention as a permanent and historical index of material recording United States Intelligence Board actions during the Johnson Administration, which is in the custody of the CIA Records Center.

2. A copy of Attachment A is being forwarded to the Johnson Library with the statement that the indexed documents will be available at the CIA Records Center for historical research at such future date as may be determined by the Director of Central Intelligence or his successor. This attachment provides reference numbers and subject titles to all USIB papers prepared during this period--the "Briefs" cover all items either on the agenda or discussed at formal USIB meetings while the "Secretary's Notes" cover all actions taken by the USIB between meetings by memoranda, vote sheet actions, telephonic concurrence, etc. The documents referred to in this attachment have been forwarded regularly to the CIA Records Center by the Executive Registry. *

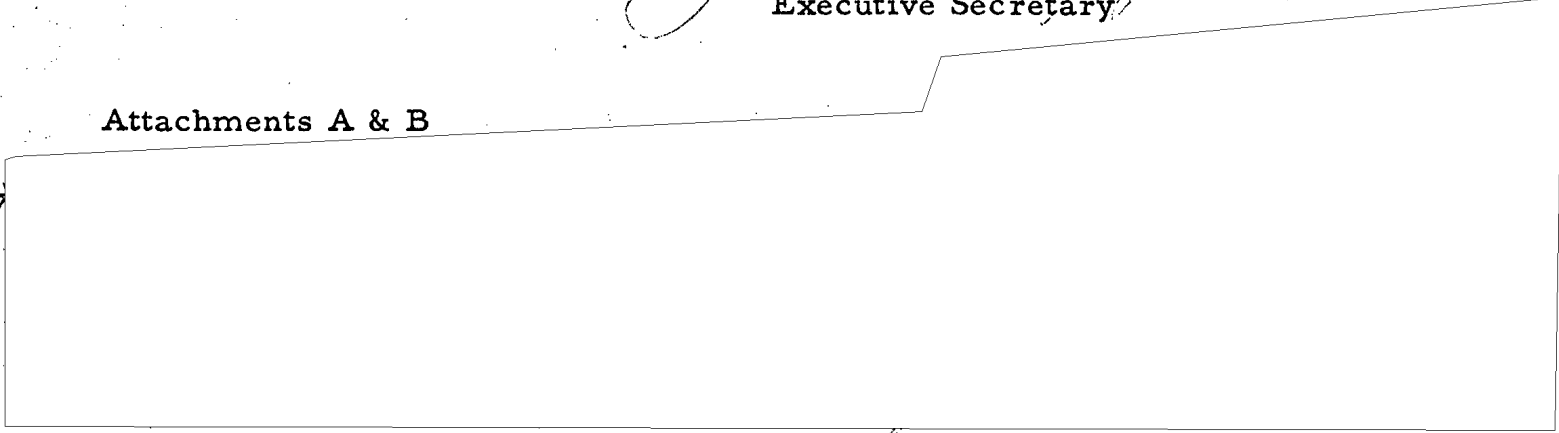

3. Attachment B is not being forwarded to the Johnson Library, but should be retained in the Records Center with Attachment A. It contains a list of USIB documents dated between November 1963 and January 1969 which were either approved, concurred in, or officially noted by the USIB and which were forwarded to the President's Foreign Intelligence Advisory Board in the White House. All documents on this list are also listed in the overall record of USIB activities contained in Attachment A.

CONFIDENTIAL

4. Because of the extreme sensitivity of these documents and need for their continued special security it has been arranged that all USIB records indexed in these attachments will be held in CIA custody; these documents to be made available for historical research at such future date as may be determined by the Director of Central Intelligence or his successor.
